From Annual Smile Boxes to Serving MPC

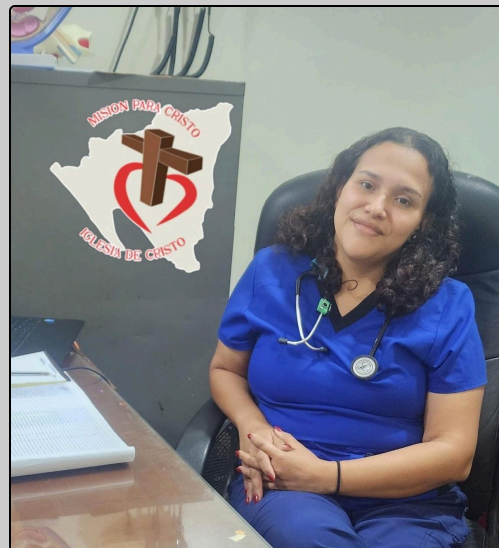

Meet Dr. Sara

Smile Boxes are assembled yearly, sewing seeds of excitement and love throughout several countries in Central America. Assembling the boxes are an awesome group effort and something people in the states enjoy providing for the children. But what the assemblers don't always see is the impact of the seeds they sew and just how God's harvest is reaped.

That's where Dr. Sara's story begins...

Over 120 students at University of the Ozarks started the new school term in service to others, spending over three hours packing over 10,000 meals.

Haiti: Wall in the Making

It's almost here: the protective barrier for the school in Haiti!
Thanks so much to our supporters for providing the funds to make this dream a reality. The wall is the first step in the process needed to get electricity to the school, then to allow students to have hands on computer instruction. More to come!

If you'd like to be a part of making computer education possible for the students in Haiti, please donate [here](#).

Ten Years of Smiles From Eureka

Just a few days after a very successful food packing event, the congregation at Eureka Church of Christ packed Smile Boxes, something the congregation is, not only passionate about, but have been doing now for over ten years! The event, which included veteran packers, as well as first timers, produced 900 boxes that are now headed to Central America for distribution during the upcoming holiday season.

There's still time to get involved For more on how, click [here](#).
